

# Hyperfibre and optional Voiceline

This document is a summary only and Broadband terms and conditions can be found online at [www.orcon.net.nz](http://www.orcon.net.nz)

## SERVICE OVERVIEW

<b>Service description</b>	<p>Orcon Hyperfibre Broadband is the latest and greatest in fibre technology.</p> <p>To get the most out of Hyperfibre you will need CAT 6 Ethernet cabling and a PC or Laptop with a 10GE LAN port.</p> <p>Service can be ordered in bridge mode or RGW mode (Chorus areas only)</p>
----------------------------	---

<b>Availability</b>	Whether or not you can get UFB depends on your location. To see if UFB is available to you, check your <a href="#">address here</a> or call our friendly sales team on <b>0800 JOIN US (0800 564 687)</b> .
---------------------	---

Hyperfibre	Monthly Data Allowance	12 month Charge (Incl. GST)	Benefits
	Hyperfibre 2 Unlimited	\$129/month	- Voicemail package for an extra \$10
	Hyperfibre 4 Unlimited	\$159/month	
	Hyperfibre 8 Unlimited	\$289/month	

Prices are current as at 22 May 2023 and are subject to change.  
To see current pricing please see our [Fibre broadband plans page](#).

<b>UFB Setup fess</b>	No charge for standard installation. Your local fibre company (LFC) may need to install a new optical network terminal (ONT) purpose built to handle the blistering speed.
-----------------------	--

### *New Fibre ONT install:*

The ONT installation process will involve a technician coming to your place to physically installing a new ONT. You will need to be present during this installation process.

### *New Fibre install:*

If this is the first time fibre is being connected at your property, then a technician will need to run a fibre optic cable from the roadside to your premise. They will then need to connect fibre from the outside of your premise to a room inside your property and install an ONT. You will need to be present during this ONT installation process.

A non-standard installation usually applies if your house is more than 200m from roadside. In these cases, a price is given upon application.

\*Pricing includes GST

Router	ONT Gateway (RGW Mode)	Orcon Hyperfibre Router (Bridge Mode)	User your own equipment (Bridge Mode)
	The optical network terminal (ONT) will also act as your Router (Chorus network only)	Rent a Orcon AX 6000 Wi-Fi router for \$10 per month.	Please note, we will be unable to offer set up or troubleshooting support for the option.
	The supplied ONT comes with 1 x 10GE LAN port, 4 x 1GE LAN ports and AC 2400 Wi-Fi	The supplied router comes with 1 x 10GE LAN port, 4 x 1GE LAN ports and AX 6000 Wi-Fi	

---

**BROADBAND PERFORMANCE**

Access type: **Fibre**

See Measuring Broadband NZ for independent information on broadband speeds and performance across different providers, plans and technologies [click here](#).

Broadband performance can be affected by many factors and the broadband speeds you experience could be different. For more information about access types, [click here](#)

---

**OTHER INFORMATION**

---

Minimum contract period      12 months

---

Early termination fee      If your Fibre broadband service (UFB) is disconnected within your contract period you will incur an early termination fee of \$250.

---

Notice period      You must give us at least 30 days' notice before cancelling.

---

Traffic management      Our policy is to provide our customers with the best possible internet experience.

To achieve this, we provision enough bandwidth to avoid congestion of any service at a typical peak hour. Orcon will only prioritise your traffic temporarily to improve performance during an unexpected outage, such as a denial of service attack.

---

Fair Use      Orcon does not enforce a fair use policy.

---

Effects on other services      Your Hyperfibre broadband service (UFB) requires mains power to operate. If power is not available (e.g. during an outage), your broadband, and any services which run over it, may stop working unless you have battery backup. Your Voicemail phone line will also stop working if there is a problem with your broadband service. This would prevent you from using it to make calls to emergency services. You should check with the provider of any existing essential services such as security alarms, medical alarms and EFTPOS to make sure they will operate with our service.

---

Complaints      At Orcon, we love to provide our customers with awesome service, so if there's anything you're not happy about in your relationship with us, we'd like to make things better. Please contact our help-desk on 0800 13 14 15 and let us know what's up.
