

ORCON VDSL BROADBAND WITH VOICELINE

This document is a summary only and Broadband terms and conditions can be found online at www.orcon.net.nz

SERVICE OVERVIEW

Service description	VDSL technology cranks up the speeds available on your standard copper lines. Faster downloads mean better video streaming and an all-round great online experience. It's popular with people who want to stream HD content and upload big files quickly, gamers and those who demand awesome broadband. Typically, the faster you go the more data you consume, so our all our broadband plans come with Unlimited data.		
Availability	VDSL is available on up to 80% of New Zealand's broadband capable lines. To see if VDSL is available to you, check your address here or call our friendly sales team on 0800 JOIN US (0800 564 687) . There are several factors that will affect your VDSL availability and speeds. These include your distance from the exchange, the condition of your copper wiring, noise on the line and line attenuation.		
VDSL with Voiceline	Prices are current as at 1 December 2021 and are subject to change.		
Average peak speed 38.2 Mbps / 10.9 Mbps *	* Average NZ VDSL download/upload speeds at busy times (SamKnows December 2021). Experienced speeds may be higher or lower, Learn more .

BROADBAND PERFORMANCE

Access type: **Copper VDSL**

For more information about access types, [click here](#).

For more information about broadband speeds and performance, [click here](#).

OTHER INFORMATION

Minimum contract period

12 months

Early termination fee

If your VDSL broadband connection is disconnected within your contract period, you will incur a termination fee of \$250.

Notice period

You must give us at least 30 days' notice before cancelling.

Other requirements

All Orcon Voiceline or Copper Voiceline VDSL broadband plans do require you to have your landline and toll calling with Orcon. Our standard package includes either an Orcon phone line or traditional copper voice line.

Orcon VDSL connections come with a free wireless router rental. If you decide to cancel your service this wireless router must be returned.

Traffic management

Our policy is to provide our customers with the best possible internet experience.

To achieve this, we provision enough bandwidth to avoid congestion of any service at a typical peak hour. Orcon will only prioritise your traffic temporarily to improve performance during an unexpected outage, such as a denial of service attack.

Fair Use

Orcon does not enforce a fair use policy.

Effects on other services

Your VDSL broadband service requires mains power to operate. If power is not available (e.g. during an outage), your broadband, and any services which run over it, may stop working unless you have battery backup at your premise. Your phone line will also stop working if there is a problem with your broadband service. This would prevent you from using it to make calls to emergency services. You should check with the provider of any existing essential services such as security alarms, medical alarms and EFTPOS to make sure they will operate with our service.
